Working Session - Announcements and News

- Concerned about the loss of branding - would like to keep items on site where possible (Jonathan)
  - Comes down to who the author is - Do Announcements come from just Jakarta EE team or from the community as well?
  - Goal - get to the point where announcements are on Jakarta EE domain

- Issue 1
  - Differentiate what is written as Announcements
  - Create key articles on Jakarta EE domain and have the rest on other domains, eg using the newsroom
    - Articles are created on Jakarta EE domain using github issue
  - Manage time sensitive submissions better - not post through newsroom but have members enabled to handle the site update.
  - Would love to get to the point where Submit news would generate the markdown and github PR.
    - See Chris’ github/admin form (his site) as an example.

- Issue 2
  - How do we ensure all news shows up in the “View All” page?
  - Chris will integrate the newsroom widget on the jakarta.ee/news page
  - Add a better explanation to the “Submit News” page about the process.
