Marcelo Ancelmo - Participant Member - Martijn Verburg
Werner Keil - Committer Member
Jun Qian - Primeton - Enterprise Member
Zhai Luchao - Shandong Cvicse Middleware Co. - Enterprise Member

Eclipse Foundation: Tanja Obradovic, Paul Buck (chair)

Guests: Scott Stark, Scott Marlow

Past business / action items:

- Approval is requested for the meeting minutes from the May 4th, 2022 meeting as drafted - Approved.

Agenda:

- Ongoing tracking spreadsheet of individual specs progressing through the JESP
  - Jakarta EE 10 Release Review - Specifications
    - PRs https://github.com/jakartaee/specifications/pulls

  - Adding the TCK User Guide is a non-functional change in the same manner as a copyright license update, but it’s on the TCK so updating it would presumably change the SHA and arguably justify needing the CI in the CCR to be rerun against it?
  - The ballot needs to be rerun with updated TCK which now includes the TCK User Guide

- Spec Summary on spec pages
- Template is [here](#)
- Specs adopt the same format as [Connectors 2.1](#)
- Add the heading “Details” after the Minimum Java Version
  - Template `_index.md` file to be update [Ivar]

Proposal after the PRs are merged to a pass through the spec pages and cleanup where required [Ivar + friends]

- Informational (no ballot at this time) - Proposal for a “Jakarta Data” project is under development

  Discussion regarding the Creation Review step of the JESP was discussed. Paul took the action to request clarification from the EMO.
