

## Jakarta EE Spec Committee - November 27th, 2024

Attendees (present in bold):

**Kenji Kazumura** - Fujitsu

**Emily Jiang** - IBM - Tom Watson

**Ed Bratt** - Oracle - **Dmitry Kornilov**

**Andrew Pielage** (chair) - Payara - **Petr Aubrecht**

David Blevins - Tomitribe - Jean-Louis Monteiro, Cesar Hernandez, **Jonathan Gallimore**

Ivar Grimstad - PMC Representative

**Marcelo Ancelmo** - Participant Member - **Abraham Marin-Perez**

**Werner Keil** - Committer Member

Jun Qian - Primeton Information Technologies - Enterprise Member

**Zhai Luchao** - Shandong Cvicse Middleware Co. - Enterprise Member

Guest - Jakarta EE 11 co-release coordinators: **Ed Burns**, Jared Anderson

Eclipse Foundation: **Tanja Obradovic**, **Paul Buck**

Past business / action items:

- Approval is requested for the minutes from the November 13th, 2024 meeting as drafted - **approved**.

### Agenda:

- Ongoing tracking [spreadsheet](#) of specifications progressing through the [JESP](#) specification version [lifecycle](#)
  - Check in on EE 11 Release Review ballots, see the spreadsheet for updates and notes.
- Catch up on the [Jakarta EE 11 Release Plan](#) [Ed Burns]
  - EE 11 - [Prioritized backlog](#) · [Jakarta EE11 TCK Release \(github.com\)](#) and [Jakarta EE11 TCK Release board](#)
  - Core Profile release ballot currently running
    - Almost all votes in, those who haven't voted encouraged to do so
  - Proposal currently circulating and being voted on by the Platform project on excluding certain tests from the TCK for Platform and Web Profile

- People are encouraged to get their votes in.
  - New discussion threads raised yesterday
    - Put Web Profile out for ballot before Platform?
      - Previously we attempted to keep them released together to ensure the same versions were used across both
        - This scenario is unlikely to happen here though
    - Appclient being considered as marked as deprecation for EE11 rather than EE12.
      - A similar suggestion to exclude these without deprecating was previously had and it was suggested would fail - this is a slightly different suggestion as the failing tests would now be deprecated and excluded
      - This won't help anything for EE11 - deprecated features still need to be tested
    - Discussion is currently around marking these technologies as optional in the respective component specifications (and releasing new versions for use in Platform)
- Catch up on the [Jakarta EE 12 Release Plan](#) [Ed Burns]
- [11/13] As the Platform Project begins the Jakarta EE 12 development cycle, they have requested (on [jakarta.ee-spec.committee](http://jakarta.ee-spec.committee)) for Progress Reviews for:
  - Jakarta NoSQL
    - <https://jakarta.ee/specifications/nosql/>
    - <https://www.eclipse.org/lists/jakarta.ee-spec/msg02795.html> [Progress Review, 10.2022]
    - Pending
  - Jakarta Config
    - <https://jakarta.ee/specifications/config/>
    - <https://www.eclipse.org/lists/jakarta.ee-spec/msg02838.html> [Plan Review, 01.2023]
    - Issue for progress review created: <https://github.com/jakartaee/config/issues/277>
  - Jakarta RPC
    - <https://jakarta.ee/specifications/rpc/>
    - <https://www.eclipse.org/lists/jakarta.ee-spec/msg02129.html> [Creation Review, 01.2022]

- Issue for progress/plan review created:  
<https://github.com/jakartaee/rpc/issues/3>
- Ivar: pinged the project on the mailing list again yesterday

The mentors for these projects are requested to let these projects know that they are required to provide input for a Progress Review and in particular to confirm (or revise) their scope and delivery timeline.

- Logging creation review still pending
- [11/13] Issue [#55](#) was discussed, a proposal was presented by Ed Bratt for consideration
  - Check in on Ed's document: [link](#)
  - Check with EMO for any conflicts with other processes
    - No formal specifications needed
  - Discuss and potentially vote
    - We would be doing an update to the TCK Process, Ed Bratt will draft a pull request which we will vote on.
- Jakarta EE 11 release retrospective ongoing [All]
  - Review the [open issues](#):
    - Determine which issues to label as “enhancement” and add to our [board](#)
    - Close issues which can are no longer relevant or have been dealt with
  - Feel free to open new issues [here](#) which we will get to after the release is done. Add the “enhancement” label.
  - <https://github.com/jakartaee/specification-committee/issues/74> - Ed Bratt still to do, has started drafting a document
- Next call is likely to be the last of the year
