Jakarta EE Membership Fees and Charter update

RESOLVED: The Jakarta EE Steering Committee approves the Charter update to transition membership fees from USD to Euros.

Voting Results

- Fujitsu: **+1**
- IBM: **-1**

- Oracle: **+1**
- Payara: **+1**
- Tomitribe: **+1**
- Enterprise Member Representative 1: No Vote
- Enterprise Member Representative 2: No Vote
- Participant Member Representative: **+1**
- Elected Committer Representative: Vacant

A total of six votes were cast, five of which were positive. As we require a two-thirds supermajority for this approval, **the proposal has passed**.

The Jakarta EE Charter changes have been approved by the Eclipse Foundation executive director and the Charter is updated.

Note: there was another update to the Charter (previously omitted paragraph was added, on Simple Majority, section Voting). Here is the text:

Simple Majority

Excepting the actions specified below for which a Super Majority is required, votes of the Body are determined by a simple majority of the representatives represented at a committee meeting at which a quorum is present.

Follow up with the previous vote on the minor update on the charter .

The minor changes to the Charter was approved by the Board in 2025: Simplifying routine updates in Charters:

> a) to ensure the charter remains consistent with the Bylaws and this Working Group Process, or
>
> b) to address any errata or make simple administrative changes to the Charters
>
> It is also documented in the WG Process Document
> Section:
> The Executive Director must approve the initial Charter. Thereafter, a Working Group's charter may be modified by: 1) a super-majority (two-thirds) affirmative vote of the Steering Committee and 2) approval by the Executive Director of the Eclipse Foundation. The Eclipse Foundation may also make changes to the Charter to ensure the Charter remains consistent with the Bylaws or this Working Group Process, to address any errata found, or to make administrative changes required to keep all working group charters consistent such as when policy names are changed. Such administrative changes are typically required to multiple working group charters. The changes made directly by the Eclipse Foundation will never include modifications to any obligations or rights of members, classes of membership, fees, etc. The Eclipse Foundation shall

inform the Steering Committee and the Working Group Participants of such changes prior to them taking effect.

Discussion on Proposal from IBM

- Please refer to the Steering Cmte folder with redlined IBM Jakarta EE Working Group Charter Proposed Changes.pdf and IBM Jakarta EE Working Group Charter Proposal Overview.pptx

There are some concerns:

1. The goals are good but how the proposal achieves the goals need to be worked out. The way to get to the goals need to be reworked.
2. How to quantify the contribution? We need to ensure a fair assessment on the contributions
3. The new fee structure might make small companies leave the working group, as they would be required to pay more.
4. There are still some unknown things to understand.
5. We need to have some projections, e,g, how many members will pay more, less etc. We can then see whether it will help or not. Please see note below.
6. There is a big jump from €0 to €50k
7. There is no option to contribute more so you can pay less.
8. The current fee structure is based on the members organizations revenue this one is not taking revenues into consideration.

   Around 10-13 members currently pay significantly less than 50k.

Some companies might not have much to do with Jakarta EE if they have no implementation of Jakarta EE. Some companies contribute money or contributions. We should focus on how to motivate the current members. Maybe award the top contributors by reducing their fees.

We need to achieve the goal of vendor neutrality.

Interim Chair is needed

- Emily absent July 11 - 28
- Will send a separate email asking for a chair volunteer while she is away.
