<p>Why Jakarta EE landing page/experience (Ed) (10 mins)</p> <ul style="list-style-type: none"> • Working Document link can be found here • In the Steering committee Ivar made a quick plea that we have a road-map for Jakarta EE. I think the Marketing committee could take some part in putting this together. I would like to hear other members thoughts. My recommendation would be that we take responsibility for soliciting and acquiring roadmap thoughts/ideas/directions from the API and possibly even associated implementation teams -- then we package it into something that has consistent look/feel. I would further propose that we regularly solicit for updates to this roadmap (2x per year, maybe more often if things are evolving more rapidly). In this way, we are providing a consistent and easy reference overview that describes where Jakarta EE is going. • Updates on value proposition doc-Ed? 	<ul style="list-style-type: none"> - Q2 - Re-examine in light of new website content and messaging.
