Mike Denicola - Fujitsu
Dan Bandera - IBM
Neil Patterson - IBM
Ed Bratt - Oracle

Eclipse Foundation representatives:

Tanya Obradovic (Eclipse Foundation)
Stephanie Swart (Eclipse Foundation)
Paul White(Eclipse Foundation)

Discussions:

JG update on EE4J API projects standardisation on the website.

Spec Process draft received no feedback. Looking at creating publicity around current status and when JNoSQL is successful through spec process.

MD had some feedback from steering community regarding positive feedback on EclipseCon. Town hall was a big success. Feedback from CodeOne was positive as well. Jakarta EE involved in IBM keynote, alot of mentions of Jakarta EE at CodeOne. Panel session went well. IG feels we could have had an Jakarta EE booth and marketing swag.

PW discussed Glassfish target date December 14th and community interest and assistance around it. Celebrating Glassfish milestone with content from members.

Eclipse foundation has approved licences for code shipped from Eclipse.
TO asked for people to contribute influencer names to list for marketing. Discussed adding some newsletter account controllers and submitting content to sites like Dzone.

Meetings possibly moving to once a fortnight in new year.
Discussed developing involvement from other members such as Microsoft, Pivotal, Lightbend etc.

Actions:

JG to open pull request and review EE4J projects task, to send an update. Involving Bill and Eric.

SW - To communicate to community about glassfish promotion. “ We have a lot of interest but want to accelerate” - Call for assistance.

PW - To work out strategy on suggesting further involvement from other Jakarta EE members.
